[illegible]

Door and Drawer Front Construction

Shenandoah uses a combination of solid hardwoods, hardwood veneers and medium density fiberboard (MDF) in the construction of our doors and drawers. Consumers should review actual samples of hardwood doors in our buying centers and cabinet displays to help establish realistic expectations of variations involving wood grain, color tones, presence of knots and so forth. More information about what to expect with different wood species can be found on page 25. The below chart shows the construction of each door style and the materials used.

DOOR STYLE			STAINED			PAINTED				DURAFORM

CONTINUOUS IMPROVEMENT

In keeping with our policy of continuous product refinement, Shenandoah Cabinetry reserves the right to change specifications in design and materials as conditions require.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
